Net Profit/(Loss) After Dividend and Tax	35,782	(88,264)

EPS (Basic and Diluted)	1.51	(3.72)

• STATE OF THE COMPANY'S AFFAIRS:

During the year under review, the Company achieved a revenue from operations of Rs. 3,19,886 (in thousands) against 2,16,446 (in thousands) for the previous year and had earned a profit of 35,782 (in thousands) against a loss of 88,264 (In Thousands) in the previous year.

The Company further intends to make progress during the Financial Year.

• DIVIDEND:

The Board of Directors of your Company, after considering holistically the relevant circumstances, has decided that it would be prudent not to recommend any Dividend for the review period.

• UNCLAIMED DIVIDEND AND INVESTOR EDUCATION AND PROTECTION FUND (IEPF):

The Company has not required to transfer any amount to the Investor Education & Protection Fund (IEPF) and no amount is lying in Unpaid Dividend A/c of the Company.

• TRANSFER TO RESERVES:

The Company has not transferred any amount to the General Reserve.

• CHANGE IN PLACE OF KEEPING OF BOOKS OF ACCOUNTS:

The Company as per section 128 of Companies Act, 2013 vide its Board Meeting dated 03rd August 2023, approved to keep the Book of accounts at its corporate office situated Floor 2 Der Deutsche Parkz, Subhash Nagar Rd, Industrial Area Bhandup West, Mumbai - 400078, Maharashtra.

• REPORT ON PERFORMANCE AND FINANCIAL POSITION OF ITS SUBSIDIARIES, ASSOCIATE COMPANIES & JOINT VENTURE:

During the period under review your Company did not have any Subsidiary, Joint Venture and Associate Company.

• DEPOSITS:

The Company has not accepted or renewed any amount falling within the purview of provisions of Section 73 of the Companies Act 2013

("the Act") read with the Companies (Acceptance of Deposit) Rules, 2014 during the year under review. Hence, the requirement for furnishing of details relating to deposits covered under Chapter V of the Act or the details of deposits which are not in compliance with Chapter V of the Act is not applicable.

• LOANS FROM DIRECTORS AND THEIR RELATIVES:

The Company has not accepted any loan from Directors of the Company or its relatives during the year under review.

• PARTICULARS OF CONTRACTS OR ARRANGEMENTS MADE WITH RELATED PARTIES:

All transactions/contracts/arrangements entered into by the Company with related party(ies) as defined under the provisions of Section 2(76) of the Companies Act, 2013, during the financial year under review were in ordinary course of business and on an arm's length basis. Further, none of these contracts / arrangements / transactions with related parties could be considered material in nature as per the thresholds given in Rule 15(3) of the Companies (Meetings of Board and its Powers) Rules, 2014 and hence no disclosure is required to be given in this regard.

• CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS & OUTGO:

The particulars as required under the provisions of Section 134(3)(m) of the Companies Act, 2013 read with Rule 8 of the Companies (Accounts) Rules, 2014 in respect of conservation of energy, technology absorption, foreign exchange earnings and outgo etc. are furnished in **Annexure A** which forms part of this Report.

• WEBLINK OF THE ANNUAL RETURN:

The Company does not have any website and hence, the Annual Return referred to in Section 92(3) has not been placed on the website.

• PARTICULARS OF LOANS, GUARANTEES, SECURITIES OR INVESTMENTS U/S 186:

The Company has not entered into any transaction relating to Loans, Guarantees, Securities or Investments during the Financial Year ended on March 31, 2024.

• MATERIAL EVENTS OCCURING AFTER BALANCE SHEET DATE:

Except as disclosed elsewhere in this report, no material changes and commitments which could

affect the Company's financial position, have occurred between the end of the financial year of the Company and date of this report.

• STATEMENT OF INTERNAL FINANCIAL CONTROL:

The Board is responsible for establishing and maintaining adequate internal financial controls with reference to the financial statements of the Company as per section 134 of the Companies Act, 2013 read with Rule 8(5)(viii) of the companies (Accounts) Rules, 2014.

The Board is of the opinion that, policies and procedures adopted by the Company for ensuring orderly and efficient conduct of its business, accuracy and completeness of the accounting records and timely preparation of reliable financial information, it has adequate Internal Controls commensurate with the size and operations of the company.

• BOARD OF DIRECTORS & KEY MANAGERIAL PERSONNEL:

The Board of Directors comprises of (Two) Directors as of March 31, 2024. There was no change in Directorship of the Company during the year under review. The Company was not required to appoint any Key Managerial Personnel as per the provisions of Companies Act, 2013.

• MEETINGS OF THE BOARD OF DIRECTORS:

During the year under review, the Board met 5 (Five) times. The intervening gap between the meetings was within the period prescribed under the Companies Act, 2013 and relevant Secretarial Standards.

S R B C & CO LLP, Chartered Accountants (Firm registration no. 324982E/ E300003) resigned from the Company with effect from January 15, 2024 and Further, pursuant to provision 139(8) of the Companies Act, 2013 in order to fill the casual vacancy Board of Directors of the Company decided to appoint M/s B S R & Co LLP Having (FRN: I01248W/W-100022) as the Statutory Auditors of the Company till the next Annual General Meeting or last date of conducting Annual General Meeting, whichever is earlier.

The consent of the Auditors along with certificate under Section 139 of the Act have been obtained from the Auditors to give effect for their appointment, if made, shall be in accordance with the prescribed conditions and that they are eligible to hold the office of Auditors of the Company. The Board recommends the appointment of M/s B S R & Co LLP Having (FRN: I01248W/W-100022) as the Statutory Auditors of the Company.

In relation to the above, the Board recommends re-appointment of M/S B S R & Co. LLP (Having FRN: 101248W/W- 100022) Chartered Accountants for a period of 5(five) consecutive years from the conclusion of the Annual General Meeting held for 2023-24 till the conclusion of the Annual General Meeting to be held for 2028-29.

- **EXPLANATION OR COMMENTS ON QUALIFICATIONS, RESERVATIONS OR ADVERSE REMARKS OR DISCLAIMERS MADE BY THE AUDITORS IN THEIR REPORTS:**

The observation / qualification / disclaimers made by the Statutory Auditors in their report for the Financial Year ended March 31, 2024 are self- explanatory and therefore, do not call for any further explanation or comments from the Board.

- **DETAILS IN RESPECT OF FRAUDS REPORTED BY STATUTORY AUDITORS:** There were no incidents of reporting of frauds by Statutory Auditors of the Company under Section 143(12) of the Act read with Companies (Accounts) Rules, 2014.

- **INTERNAL AUDITORS:** The provision of Section 138 of the Act, and The Companies (Accounts) Rules, 2014 is not applicable to our Company and thus the Company has not appointed any Internal Auditor.
- **MAINTENANCE OF COST RECORDS:**

Pursuant to the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Cost Records and Audit) Rules, 2014, as amended from time to time, the Company is not required to maintain Cost Records under said Rules during the year under review.

- **COST AUDITOR:**

During the year under review, the Company does not fall within the ambit of the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Cost records & Audit) Rules, 2014, therefore no cost auditor was not required to be appointed.

• SECRETARIAL AUDIT REPORT

Provisions of Section 204 read with Section 134(3) of the Companies Act, 2013, the Company is not required to appoint Secretarial Auditor during the year under review.

• DIRECTORS' RESPONSIBILITY STATEMENT:

In terms of Section 134(5) of the Companies Act, 2013, in relation to the audited financial statements of the Company for the year ended March 31, 2024, the Board of Directors hereby confirms that:

• in the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;

• such accounting policies have been selected and applied consistently and the Directors made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as at March 31, 2024 and of the profit/loss of the Company for that year;

• proper and sufficient care was taken for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

• the annual accounts of the Company have been prepared on a going concern basis;

• proper systems have been devised to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively;

• DISCLOSURE REGARDING INTERNAL COMPLAINT COMMITTEE:

Your company was not required to constitute Internal Complaints Committee under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 as there are no employees in the Company.

• DETAILS OF SIGNIFICANT AND MATERIAL ORDERS PASSED BY REGULATORS OR COURTS OR TRIBUNALS IMPACTING THE GOING CONCERN STATUS AND COMPANY'S OPERATIONS IN FUTURE:

.

The Company has not received any material order passed by Regulators or Court or Tribunal impacting the going concern status and Company's operations in future.

• THE DETAILS OF APPLICATION MADE OR ANY PROCEEDING PENDING UNDER THE INSOLVENCY AND BANKRUPTCY CODE, 2016 DURING THE YEAR ALONGWITH THEIR STATUS AS AT THE END OF THE FINANCIAL YEAR.

The Company has not made any application or there is no proceeding pending under the Insolvency and Bankruptcy Code, 2016 during the year under report.

• THE DETAILS OF DIFFERENCE BETWEEN THE AMOUNT OF THE VALUATION DONE AT THE TIME OF ONE TIME SETTLEMENT AND THE VALUATION DONE WHILE TAKING LOAN FROM THE BANKS OR FINANCIAL INSTITUTIONS ALONG WITH THE REASONS THEREOF.

There was no one time settlement of any loan taken from banks or financial institutions during the year under review.

• DISCLOSURE UNDER SECTION 54(1)(d) OF THE COMPANIES ACT, 2013.

The Company has not issued any sweat equity shares during the year under review and hence no information as per provisions of Section 54(1)(d) of the Act read with Rule 8(13) of the Companies (Share Capital and Debenture) Rules, 2014 is furnished.

• DISCLOSURE UNDER SECTION 43(a)(ii) OF THE COMPANIES ACT, 2013:

The Company has not issued any shares with differential rights and hence no information as per provisions of Section 43(a)(ii) of the Act read with Rule 4(4) of the Companies (Share Capital and Debenture) Rules, 2014 is furnished.

• DISCLOSURE UNDER SECTION 67(3) OF THE COMPANIES ACT, 2013:

During the year under review, there were no instances of non-exercising of voting rights in respect of shares purchased directly by employees under a scheme pursuant to Section 67(3) of the Act read with Rule 16(4) of Companies (Share Capital and Debentures) Rules, 2014is furnished.

• DISCLOSURE UNDER SECTION 62(1)(b) OF THE COMPANIES ACT, 2013

The Company has not issued any equity shares under Employees Stock Option Scheme during the year under review and hence no information as per provisions of Section 62(1)(b) of the Act read with Rule 12(9) of the Companies (Share Capital and Debenture) Rules, 2014 is furnished.

• ACKNOWLEDGEMENTS AND APPRECIATION:

Your directors take this opportunity to thank the customers, shareholders, suppliers, bankers, business partners/associates, financial institutions and Central and State Governments for their consistent support and encouragement to the Company.

Ratio Analysis and its elements:-

Ratio	Numerator	Denominator	March 31, 2024	March 31, 2023	% change	Reasons
Current ratio	Current Assets	Current Liabilities	1.19	1.08	9.40%	
Return on Equity ratio	Net Profit after taxes Preference dividend	Average Share holder's Equity	1.11	-1,033	-100.11%	Addition of new brand partners and increase in commission % from 5% to 8.5% in case of holding company has led to increase in return on equity ratio
Trade receivable turnover ratio	Retail Sales	Average Trade Receivable	3.24	5.25	-38.19%	Though trade receivables has increased from last year, adversed trade receivable turnover ratio is on account of increase in revenue and outstanding mainly from holding company
Net	Net	Work				Favourable capital turnover ratio is on account of better capital ma

Capital Turnover ratio	Sales = Total sales - sales return	ing capital = Current assets - Current liabilities	6.87	21.47	-68.00%	nagement in current year. Marketing expense as % of sales has come down from 209% to 116% hence increasing marketing throughout
Net Profit ratio	Net Profit	Net Sales = Total sales - sales return	0.11	(0.41)	-127.44%	Net profit ratio has improved on account of higher revenue which is the product of new brands and increase in commission % from holding company
Return on capital employed	Earning	Capital employed = Net worth + Total debt + Deferred tax liability	0.71	(6.12)	-111.64%	This is on account of better profit position in current year which is result of increased revenue

Textual information (28)

Disclosure in auditor’s report explanatory [Text Block]

Opinion

To the Members of Rebel Marketplace India Private Limited Report on the Audit of the Financial Statements

We have audited the financial statements of Rebel Marketplace India Private Limited (the “?Company”?) which comprise the balance sheet as at 31 March 2024, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“?Act”?) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Management's and Board of Directors'/Board of Trustees' Responsibilities for the Financial Statements

The Company’s Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company’s financial reporting process

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
• Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
• Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

• The financial statements of the Company for the year ended 31 March 2023 were audited by the predecessor auditor who had expressed unmodified opinion on 26 September 2023.

Report on Other Legal and Regulatory Requirements

• As required by the Companies (Auditor's Report) Order, 2020 ("Bthe Order"B) issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "BAnnexure A"B a statement

on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 A. As required by Section 143(3) of the Act, we report that:

• We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
• In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
• The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
• In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
• On the basis of the written representations received from the directors as on 31 March 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act.
• the modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph b above on reporting under Section 143(3)(b) and paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
• The Company has been exempted from the requirement of its auditor reporting on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls (clause (i) of Section 143(3)).
• With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
• The Company does not have any pending litigations which would impact its financial position.
• The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
• There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

d (i) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 25 (d) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("?Intermediaries"?), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("?Ultimate Beneficiaries"?) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

• The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 25 (e) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
• Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the

representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.

• The Company has neither declared nor paid any dividend during the year.
• Based on our examination which included test checks, except for the instances mentioned below, the Company has used accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility. For accounting software for audit trail is enabled, the audit trail facility has been operating throughout the year for all relevant transactions recorded in the respective softwares:

• The feature of recording audit trail (edit log) facility was not enabled at the application level for certain fields for the accounting software used for maintaining general ledger.
• The feature of recording audit trail (edit log) facility was not enabled at the database level to log any direct data changes.

Further, where audit trail (edit log) facility was enabled and operated throughout the year, we did not come across any instance of audit trail feature being tampered with during the course of our audit.

• With respect to the matter to be included in the Auditor’s Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the Company is not a public company. Accordingly, the provisions of Section 197 of the Act are not applicable to the Company. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

(i) (a) (A) According to the information and explanation given to us and on the basis of the records of the Company, the Company does not own any property, plant and equipment. Accordingly clause 3(i)(a)(A) of the order is not applicable.

(B) According to the information and explanation given to us and on the basis of the records of the Company, the Company does not own any intangible assets. Accordingly clause 3(i)(a)(B) of the order is not applicable.

• (b) According to the information and explanation given to us and on the basis of the records of the Company, the Company does not have any property, plant and equipment. Accordingly clause 3(i)(b) of the order is not applicable.
• The Company does not have any immovable property. Accordingly, clause 3(i)(c) of the Order is not applicable.
• The Company does not have any property, plant and equipment. Accordingly clause 3(i)(d) of the order is not applicable
• According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
• (a) According to information and explanations given to us and on the basis of our examination of the records of the Company, the Company does not hold any inventory and accordingly, clause 3(ii)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits in excess of five crore rupees in aggregate from banks and financial institutions on the basis of security of current assets at any point of time of the year. Accordingly, clause 3(ii)(b) of the Order is not applicable to the Company.

• According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.
• According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Companies Act, 2013 (“the Act”) are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.
• The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.
• According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the services provided by it. Accordingly, clause 3(vi) of the Order is not applicable.
• (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination

of the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Income-Tax or other statutory dues have been regularly deposited by the Company with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Services Tax, Income-Tax or other statutory dues were in arrears as at 31 March 2024 for a period

of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to Goods and Services Tax, Income-Tax or other statutory dues, which have not been deposited with the appropriate authorities on account of any dispute.

• According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.
• (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable to the Company.
• According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.
• According to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.
• According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.
• The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2024. Accordingly, clause 3(ix)(e) is not applicable.
• The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2024. Accordingly, clause 3(ix)(e) is not applicable.
• (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

• (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the course of the audit.
• According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.
• Based on the information and explanations provided to us, the Company does not have a vigil mechanism and is not required to have a vigil mechanism as per the Act or SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
• According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.
• The Company is a private limited company and accordingly the requirements as stipulated by the provisions of Section 177 of the Act are not applicable to the Company. In our opinion and according to the information and explanations given to us and on the basis of our examination of records of the Company, transactions with the related parties are in compliance with Section 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
• (a) In our opinion and based on the information and explanations provided to us, the Company does not have an Internal Audit system and is not required to have an internal audit system as per Section 138 of the Act.

(b) In our opinion and based on the information and explanations provided to us, the Company does not have an internal audit system and is not required to have an internal audit system as per Section 138 of the Act. Accordingly, clause 3(xiv)(b) of the Order is not applicable.

• In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.
• (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.
• The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.
• The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.
• The Company is not part of any group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016 as amended). Accordingly, the requirements of clause 3(xvi)(d) are not applicable.
• The Company has not incurred cash losses in the current financial year and incurred cash losses of Rs 375,219 hundreds in the immediately preceding financial year.
• There has been resignation of the statutory auditors during the year and we have duly taken into consideration the issues, objections or concerns raised by the outgoing auditors.
• According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
• The requirements as stipulated by the provisions of Section 135 are not applicable to the
• Company. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Disclosure of significant accounting policies [Text Block]

2 Summary of material accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

The financial statements are presented in India Rupees ('INR') and all values are rounded to the nearest thousand, except when otherwise indicated. 0 indicates amount less than INR 1,000.

There financial statements are authorised for issue by the Board of Directors of the Company at their meeting held on 1 July 2024

Use of Estimates and Judgements

The preparation of the financial statements in confirmity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Critical estimates and judgements in applying accounting policies

Estimates & judgements made in applying accounting policies that have significant effect on the amounts recognized in the financial statements are as follows:

1. Provision for receivable: The business model of the Company is charging commission on orders generated on its own & third party platform, providing storage services and other support services, hence the credit risk from receivable perspective is significant. The Company uses simplified approach to access expected credit loss on their receivables.

2. Going Concern: The management has performed an assessment of the Company's ability to continue as a going concern. Based on the assessment, the management belives that there is no mateiral uncertainty with respect to any events or conditions that may cast a significant doubt on the entity to continue as a going concern, hence the financial statements have been prepared on a going concern basis.

2.2 Material Accounting Policies

2.2.1 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

a) Expected to be realised or intended to be sold or consumed in normal operating cycle.

b) Expected to be realised within twelve months after the reporting period, or

c) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

d) Held primarily for the purpose of trading.

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in normal operating cycle

b) It is due to be settled within twelve months after the reporting period, or

c) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

d) It is held primarily for the purpose of trading

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2.2 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

? Disclosures for significant estimates and assumptions

? Quantitative disclosures of fair value measurement hierarchy

? Financial instruments (including those carried at amortised cost)

2.2.3 Revenue from contract with costumers

The Company generates revenue from charging commission on orders generated on its own & third party platform, providing storage services and other support services. Revenue from operations is recognised to the extent that it is probable that economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made as per Ind AS 115. Revenue is recongnized to depict the transfer of control of promised goods or services to customers upon the satisfaction of performance obligation under the contract in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Where performance obligation is satisfied over time, Company recognizes revenue over the contract period. Where performance obligation is satisfied at a point in time, Company recognizes revenue when customer obtains control of promised goods and services in the contract. Revenue is recognized net of any taxes collected from customers, which are remitted to governmental authorities.

Revenue from commission

The Company through its platform allows transactions between the consumers and restaurants partners enlisted with the platform. The company earns commission income on such transaction from restaurant partners upon completion of the transaction basis the agreed percentage under contract.

Revenue from Storage services

Storage Income is derived by providing storage services to the restaurant partners for enabling them to facilitate orders. Storage services refers to providing storage space in the cloud kitchens to the restaurant partners for their operations. The company recognizes revenue over the period of time when such storage services are provided

Revenue from other services

Such revenue is recognised in the accounting period in which the services are rendered in accordance with the agreement with the parties.

2.2.4 Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred Tax

Deferred tax is recognised using balance sheet approach at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. Un-recognised deferred tax assets are

re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.2.5 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Company’s business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are ‘solely payments of principal and interest (SPPI)’ on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost (debt instruments)

Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)

Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement? and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company’s continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

Financial liabilities at fair value through profit or loss

Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortised cost

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

2.2.6 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company’s cash management.

2.2.7 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.2.8 Provisions

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.2.9 Trade and other payables

These amounts represents liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.2.10 Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker of the company accordingly Customers contributing more than 10% of revenue of the Company is reported in segment reporting. The Chief Operating Decision Maker (CODM) assesses the financial performance and position of the Company as a whole and makes stretegic decisions.

2.2.11 Other Financial Liabilities:

Other financial liabilities are initially recognised at fiar value (net of transaction cost incurred). Difference between the fair value and the transaction proceeds on initiation is recognised as an asset/liability based on the underlying reason for the difference. Subsequently all financial liabilities are measured at amortised cost using the effective interest rate method. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non cash transferred or liabilities assumed, is recognised in the statement of profit and loss.

Textual information (30)

Disclosure of significant accounting policies [Text Block]

Summary of significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

The company has incurred a loss of Rs 88,264 Thousands for the year ending 31 March 2023 (31 March 2022: 114,118 Thousands) also, the company has accumulated Losses of Rs. 205,787 Thousands as at 31 March 2023 (31 March 2022: 117,523 Thousands) against share capital of Rs. 23,728 Thousands as on 31 March 2023 (31 March 2022: 22,003 Thousands) and securities premium of Rs. 196,473 Thousands (31 March 2022: 98,198 thousands).

Notwithstanding the above-mentioned factors, the Company has received a support letter from its Holding company, confirming its operational and financial support. Further, the management believes that the same will enable the Company for its working capital requirement to operate and settle its liabilities and obligations as and when they become due and payable. Based on the above, these financial statements have been prepared under a going concern assumption.

Use of Estimates and Judgements

The preparation of the financial statements in confirmity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are

recognised prospectively.

Critical estimates and judgements in applying accounting policies

Estimates & judgements made in applying accounting policies that have significant effect on the amounts recognized in the financial statements are as follows:

1. Provision for receivable: The business model of the company is charging commission on orders generated on its own & third party platform, providing storage services and other support services, hence the credit risk from receivable perspective is significant. The company uses simplified approach to access expected credit loss on their receivables. The Company usually makes provision for receivables outstanding for more than 60 days.

2. Going Concern: The management has performed an assessment of the company's ability to continue as a respect to any events or conditions that may cast a significant doubt on the entity to continue as a going concern, hence the financial statements have been prepared on a going concern basis.

2.2 Significant Accounting Policies

2.2.1 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

a) Expected to be realised or intended to be sold or consumed in normal operating cycle.

b) Expected to be realised within twelve months after the reporting period, or

c) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

d) Held primarily for the purpose of trading.

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in normal operating cycle

b) It is due to be settled within twelve months after the reporting period, or

c) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

d) It is held primarily for the purpose of trading

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2.2 Foreign Currencies

The company's financial statements are presented in Indian Rupees ('INR'), which is the Company's functional and presentation currency. Items included in Financial statements of the Company are measured using primary economic environment in which the Company operates ("the functional currency").

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Transactions in foreign currency are recorded applying the exchange rate at the date of transaction. Monetary assets and liabilities denominated in foreign currency remaining unsettled at the end of the year, are translated at the closing rates prevailing on the Balance Sheet date. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of transaction.

Exchange differences arising as a result of the above are recognized as income or expenses in the statement of profit and loss.Exchange difference arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or expenses in the year in which they arise.

2.2.3 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price

that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Disclosures for significant estimates and assumptions

Quantitative disclosures of fair value measurement hierarchy

Financial instruments (including those carried at amortised cost)

2.2.4 Revenue from contract with costumers

The company generates revenue from charging commission on orders generated on its own & third party platform, providing storage services and other support services. Revenue from operations is recognised to the

extent that it is probable that economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made as per Ind AS 115. Revenue is recongnized to depict the transfer of control of promised goods or services to customers upon the satisfaction of performance obligation under the contract in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. Where performance obligation is satisfied over time, Company recognizes revenue over the contract period. Where performance obligation is satisfied at a point in time, Company recognizes revenue when customer obtains control of promised goods and services in the contract. Revenue is recognized net of any taxes collected from customers, which are remitted to governmental authorities.

Revenue from commission

The Company through its platform allows transactions between the consumers and restaurants partners enlisted with the platform. The company earns commission income on such transaction from restaurant partners upon completion of the transaction basis the agreed percentage under contract.

Revenue from Storage services

Storage Income is derived by providing storage services to the restaurant partners for enabling them to facilitate orders. Storage services refers to providing storage space in the cloud kitchens to the restaurant partners for their operations. The company recognizes revenue over the period of time when such storage services are provided

Revenue from other services

Such revenue is recognised in the accounting period in which the services are rendered in accordance with the agreement with the parties.

2.2.5 Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either

in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred Tax

Deferred tax is recognised using balance sheet approach at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. Un-recognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.2.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by

regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date

that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost (debt instruments) Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative

gains and losses (debt instruments)

Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon

derecognition (equity instruments)

Financial assets at fair value through profit or loss A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial

assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay

the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement and

either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company

has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred

control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a

pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor

transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the

Company’s continuing involvement. In that case, the Company also recognises an associated liability. The

transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that

the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower

of the original carrying amount of the asset and the maximum amount of consideration that the Company could

be required to repay.

Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at

fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an

approximation of the original effective interest rate. The expected cash flows will include cash flows from the

sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in

credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are

possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a

significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected

over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs.

Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on

lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its

historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic

environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or

loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge,

as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and

payables, net of directly attributable transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

Financial liabilities at fair value through profit or loss

Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial

liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the

near term. This category also includes derivative financial instruments entered into by the Company that are

not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded

derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities

designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI.

These gains/ losses are not subsequently transferred to P&L. However, the company may transfer the statement of profit and loss. The Company has not designated any financial liability as at fair value through

profit or loss.

Financial liabilities at amortised cost

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs

that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit

and loss.

2.2.7 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with

an original maturity of three months or less, that are readily convertible to a known amount of cash and subject

to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term

deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the

Company’s cash management.

2.2.8 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.2.9 Provisions

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.2.11

Trade and other payables

These amounts represents liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current

liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.2.12

Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker of the company accordingly Customers contributing more than 10% of revenue of the company is reported in segment reporting. The Chief Executive Officer assesses the financial performance and position of the Company as a whole and makes stretegic decisions.

2.2.13

Other Financial Liabilities:

Other financial liabilities are initially recognised at fiar value (net of transaction cost incurred). Difference between the fair value and the transaction proceeds on initiation is recognised as an asset/liability based on the underlying reason for the difference. Subsequently all financial liabilities are measured at amortised cost using the effective interest rate method. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non cash transferred or liabilities assumed, is recognised in the statement of profit and loss.

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 - Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements.

Ind AS 12 - Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and

decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounti ng estimates i f accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

The Company does not expect these amendment to have any material impact in its financial statements.

2 Summary of material accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

The financial statements are presented in India Rupees ('INR') and all values are rounded to the nearest thousand, except when otherwise indicated. 0 indicates amount less than INR 1,000.

There financial statements are authorised for issue by the Board of Directors of the Company at their meeting held on 1 July 2024

Use of Estimates and Judgements

The preparation of the financial statements in confirmity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Critical estimates and judgements in applying accounting policies

Estimates & judgements made in applying accounting policies that have significant effect on the amounts recognized in the financial statements are as follows:

1. Provision for receivable: The business model of the Company is charging commission on orders generated on its own & third party platform, providing storage services and other support services, hence the credit risk from receivable perspective is significant. The Company uses simplified approach to access expected credit loss on their receivables.

2. Going Concern: The management has performed an assessment of the Company's ability to continue as a going concern. Based on the assessment, the management belives that there is no mateiral uncertainty with respect to any events or conditions that may cast a significant doubt on the entity to continue as a going concern, hence the financial statements have been prepared on a going concern basis.

2.2 Material Accounting Policies

2.2.1 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

a) Expected to be realised or intended to be sold or consumed in normal operating cycle.

b) Expected to be realised within twelve months after the reporting period, or

c) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

d) Held primarily for the purpose of trading.

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in normal operating cycle

b) It is due to be settled within twelve months after the reporting period, or

c) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

d) It is held primarily for the purpose of trading

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2.2 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

? Disclosures for significant estimates and assumptions

? Quantitative disclosures of fair value measurement hierarchy

? Financial instruments (including those carried at amortised cost)

2.2.3 Revenue from contract with costumers

The Company generates revenue from charging commission on orders generated on its own & third party platform, providing storage services and other support services. Revenue from operations is recognised to the extent that it is probable that economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made as per Ind AS 115. Revenue is recongnized to depict the transfer of control of promised goods or services to customers upon the satisfaction of performance obligation under the contract in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Where performance obligation is satisfied over time, Company recognizes revenue over the contract period. Where performance obligation is satisfied at a point in time, Company recognizes revenue when customer obtains control of promised goods and services in the contract. Revenue is recognized net of any taxes collected from customers, which are remitted to governmental authorities.

Revenue from commission

The Company through its platform allows transactions between the consumers and restaurants partners enlisted with the platform. The company earns commission income on such transaction from restaurant partners upon completion of the transaction basis the agreed percentage under contract.

Revenue from Storage services

Storage Income is derived by providing storage services to the restaurant partners for enabling them to facilitate orders. Storage services refers to providing storage space in the cloud kitchens to the restaurant partners for their operations. The company recognizes revenue over the period of time when such storage services are provided

Revenue from other services

Such revenue is recognised in the accounting period in which the services are rendered in accordance with the agreement with the parties.

2.2.4 Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred Tax

Deferred tax is recognised using balance sheet approach at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. Un-recognised deferred tax assets are

re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.2.5 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Company’s business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are ‘solely payments of principal and interest (SPPI)’ on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost (debt instruments)

Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)

Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement? and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company’s continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

Financial liabilities at fair value through profit or loss

Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortised cost

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

2.2.6 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company’s cash management.

2.2.7 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.2.8 Provisions

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.2.9 Trade and other payables

These amounts represents liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.2.10 Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker of the company accordingly Customers contributing more than 10% of revenue of the Company is reported in segment reporting. The Chief Operating Decision Maker (CODM) assesses the financial performance and position of the Company as a whole and makes stretegic decisions.

2.2.11 Other Financial Liabilities:

Other financial liabilities are initially recognised at fiar value (net of transaction cost incurred). Difference between the fair value and the transaction proceeds on initiation is recognised as an asset/liability based on the underlying reason for the difference. Subsequently all financial liabilities are measured at amortised cost using the effective interest rate method. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non cash transferred or liabilities assumed, is recognised in the statement of profit and loss.

Textual information (34)

Disclosure of significant accounting policies [Text Block]

Summary of significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

The company has incurred a loss of Rs 88,264 Thousands for the year ending 31 March 2023 (31 March 2022: 114,118 Thousands) also, the company has accumulated Losses of Rs. 205,787 Thousands as at 31 March 2023 (31 March 2022: 117,523 Thousands) against share capital of Rs. 23,728 Thousands as on 31 March 2023 (31 March 2022: 22,003 Thousands) and securities premium of Rs. 196,473 Thousands (31 March 2022: 98,198 thousands).

Notwithstanding the above-mentioned factors, the Company has received a support letter from its Holding company, confirming its operational and financial support. Further, the management believes that the same will enable the Company for its working capital requirement to operate and settle its liabilities and obligations as and when they become due and payable. Based on the above, these financial statements have been prepared under a going concern assumption.

Use of Estimates and Judgements

The preparation of the financial statements in confirmity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are

recognised prospectively.

Critical estimates and judgements in applying accounting policies

Estimates & judgements made in applying accounting policies that have significant effect on the amounts recognized in the financial statements are as follows:

1. Provision for receivable: The business model of the company is charging commission on orders generated on its own & third party platform, providing storage services and other support services, hence the credit risk from receivable perspective is significant. The company uses simplified approach to access expected credit loss on their receivables. The Company usually makes provision for receivables outstanding for more than 60 days.

2. Going Concern: The management has performed an assessment of the company's ability to continue as a respect to any events or conditions that may cast a significant doubt on the entity to continue as a going concern, hence the financial statements have been prepared on a going concern basis.

2.2 Significant Accounting Policies

2.2.1 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

a) Expected to be realised or intended to be sold or consumed in normal operating cycle.

b) Expected to be realised within twelve months after the reporting period, or

c) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

d) Held primarily for the purpose of trading.

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in normal operating cycle

b) It is due to be settled within twelve months after the reporting period, or

c) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

d) It is held primarily for the purpose of trading

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2.2 Foreign Currencies

The company's financial statements are presented in Indian Rupees ('INR'), which is the Company's functional and presentation currency. Items included in Financial statements of the Company are measured using primary economic environment in which the Company operates ("the functional currency").

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Transactions in foreign currency are recorded applying the exchange rate at the date of transaction. Monetary assets and liabilities denominated in foreign currency remaining unsettled at the end of the year, are translated at the closing rates prevailing on the Balance Sheet date. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of transaction.

Exchange differences arising as a result of the above are recognized as income or expenses in the statement of profit and loss.Exchange difference arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or expenses in the year in which they arise.

2.2.3 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price

that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Disclosures for significant estimates and assumptions

Quantitative disclosures of fair value measurement hierarchy

Financial instruments (including those carried at amortised cost)

2.2.4 Revenue from contract with costumers

The company generates revenue from charging commission on orders generated on its own & third party platform, providing storage services and other support services. Revenue from operations is recognised to the

extent that it is probable that economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made as per Ind AS 115. Revenue is recongnized to depict the transfer of control of promised goods or services to customers upon the satisfaction of performance obligation under the contract in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. Where performance obligation is satisfied over time, Company recognizes revenue over the contract period. Where performance obligation is satisfied at a point in time, Company recognizes revenue when customer obtains control of promised goods and services in the contract. Revenue is recognized net of any taxes collected from customers, which are remitted to governmental authorities.

Revenue from commission

The Company through its platform allows transactions between the consumers and restaurants partners enlisted with the platform. The company earns commission income on such transaction from restaurant partners upon completion of the transaction basis the agreed percentage under contract.

Revenue from Storage services

Storage Income is derived by providing storage services to the restaurant partners for enabling them to facilitate orders. Storage services refers to providing storage space in the cloud kitchens to the restaurant partners for their operations. The company recognizes revenue over the period of time when such storage services are provided

Revenue from other services

Such revenue is recognised in the accounting period in which the services are rendered in accordance with the agreement with the parties.

2.2.5 Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either

in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred Tax

Deferred tax is recognised using balance sheet approach at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. Un-recognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.2.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by

regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date

that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost (debt instruments) Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative

gains and losses (debt instruments)

Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon

derecognition (equity instruments)

Financial assets at fair value through profit or loss A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial

assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay

the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement and

either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company

has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred

control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a

pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor

transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the

Company’s continuing involvement. In that case, the Company also recognises an associated liability. The

transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that

the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower

of the original carrying amount of the asset and the maximum amount of consideration that the Company could

be required to repay.

Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at

fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an

approximation of the original effective interest rate. The expected cash flows will include cash flows from the

sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in

credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are

possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a

significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected

over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs.

Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on

lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its

historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic

environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or

loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge,

as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and

payables, net of directly attributable transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

Financial liabilities at fair value through profit or loss

Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial

liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the

near term. This category also includes derivative financial instruments entered into by the Company that are

not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded

derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities

designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI.

These gains/ losses are not subsequently transferred to P&L. However, the company may transfer the statement of profit and loss. The Company has not designated any financial liability as at fair value through

profit or loss.

Financial liabilities at amortised cost

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs

that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit

and loss.

2.2.7 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with

an original maturity of three months or less, that are readily convertible to a known amount of cash and subject

to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term

deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the

Company’s cash management.

2.2.8 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.2.9 Provisions

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.2.11

Trade and other payables

These amounts represents liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current

liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.2.12

Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker of the company accordingly Customers contributing more than 10% of revenue of the company is reported in segment reporting. The Chief Executive Officer assesses the financial performance and position of the Company as a whole and makes stretegic decisions.

2.2.13

Other Financial Liabilities:

Other financial liabilities are initially recognised at fiar value (net of transaction cost incurred). Difference between the fair value and the transaction proceeds on initiation is recognised as an asset/liability based on the underlying reason for the difference. Subsequently all financial liabilities are measured at amortised cost using the effective interest rate method. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non cash transferred or liabilities assumed, is recognised in the statement of profit and loss.

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 - Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements.

Ind AS 12 - Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and

decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounti ng estimates i f accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

The Company does not expect these amendment to have any material impact in its financial statements.

[611800] Notes - Revenue

Unless otherwise specified, all monetary values are in Thousands of INR

	01/04/2023 to 31/03/2024
Disclosure of revenue [TextBlock]	Textual information (35) [See below]

Textual information (35)

Disclosure of revenue [Text Block]

Revenue from contract with costumers

The company generates revenue from charging commission on orders generated on its own & third party platform, providing storage services

and other support services. Revenue from operations is recognised to the extent that it is probable that economic benefit will flow to the

company and revenue can be reliably measured regardless of when the payment is being made as per Ind AS 115. Revenue is recongnized to

depict the transfer of control of promised goods or services to customers upon the satisfaction of performance obligation under the contract in an

amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. Where performance

obligation is satisfied over time, Company recognizes revenue over the contract period. Where performance obligation is satisfied at a point in

time, Company recognizes revenue when customer obtains control of promised goods and services in the contract. Revenue is recognized net of

any taxes collected from customers, which are remitted to governmental authorities.

Revenue from commission

The Company through its platform allows transactions between the consumers and restaurants partners enlisted with the platform. The company

earns commission income on such transaction from restaurant partners upon completion of the transaction basis the agreed percentage under

contract.

Revenue from Storage services

Storage Income is derived by providing storage services to the restaurant partners for enabling them to facilitate orders. Storage services refers to

providing storage space in the cloud kitchens to the restaurant partners for their operations. The company recognizes revenue over the period of

time when such storage services are provided

Revenue from other services

Such revenue is recognised in the accounting period in which the services are rendered in accordance with the agreement with the parties

Whether there are any defined benefit plans	No	No

Textual information (36)

Disclosure of employee benefits [Text Block]

Employees of the Company receive remuneration in the form of share-based payments in consideration of the services rendered. Under the equity settled share based payment, the fair value on the grant date of the awards given to employees is recognised as ‘employee benefit expenses’ with a corresponding increase in equity over the vesting period. The fair value of the options at the grant date is calculated by

an independent valuer basis Black Scholes model. At the end of each reporting period, apart from the non-market vesting condition, the expense is reviewed and adjusted to reflect changes to the level of options expected to vest. When the options are exercised, the Company issues fresh equity shares.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company’s best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.
